Subject: Re: re. Town Council Meeting

Dear Ms. Lawson:

I would also like to add that we are seeking to discuss the placement of signage on Route 114 at the corner of Stringham Road and will be seeking the Town's support on that matter. Additionally; we are engaged in regular trash and recycling efforts and we'd like to collaborate with the Town Council for future activities.

Thank you,

Jay Primiano

Dear Ms. Lawson:

I am seeking to be included on the February 12th, 2018 agenda as I'd like to speak to the Town Council in a follow-up of our planning presentation in 2016, as to the success of our company which is located in the Melville section of Portsmouth. We hired thirty people from the community, utilized local contractors for all of our products and services including local contractors and we served 23,000 riders with our ecotourism company, Rail Explorers during our first year of operation.

I anticipate taking approximately five minutes of the Town Council's time during this "good-news" presentation.

Kind regards,

Jay Primiano
