JENNIFER M. WEST
TOWN CLERK

January 29, 2018

To Who It May Concern:

This letter is to request that the Portsmouth Wind Turbine, located at the Portsmouth High School, be placed on the next town meeting. Due to the constant output of noise and seasonal shadow light flicker problem. These problems cause sleep disturbance and overall poor quality of life. I recommend that a solution to this problem be to shut down the wind turbine during hours of the day that cause shadow light flicker, and also during the night, as the noise disturbs our quality of sleep. With the wind turbine producing a loud noise that disturbs residents regular sleeping patterns. This has been an ongoing problem for the residents since the installment of a wind turbine at the Portsmouth High School.

I have spoken with neighbors and local residents about the issue. They have the same complaints as I do. When we residents purchased our properties we did not have this wind turbine in our backyard. Due to the wind turbine being installed at the Portsmouth High School our quality of life has suffered. We would like to further discuss this issue during the next town meeting. We would like this situation to be resolved so we residence that live near the wind turbine can have our quality of life back.

Respectfully Submitted,

David Souza
