FINDING & NOTICE OF VIOLATION

Dear Sir or Madam:

Under the regulations of the Rhode Island Coastal Resources Management Program (RICRMP), any construction, grading, or filling activities or other alterations within 200 feet of coastal feature associated with tidal waters or coastal ponds of the state or in CRMC's freshwater wetlands in the vicinity of the coast jurisdiction, requires plans for the proposed work be submitted to the Coastal Resources Management Council (CRMC) for review, evaluation, and comment prior to the proposed activity. Failure to do so is a violation of the RICRMP. After evaluation of the plans by CRMC staff, their comments and the requirements for the proposed activities are forwarded to the applicant.

It has come to the attention of the CRMC that you or your agent have undertaken clearing of vegetation on a coastal feature at your property located in the wetland area across from 152 Common Fence Point Boulevard, Portsmouth, Plat 2, Lot 179 without benefit of a CRMC assent or in violation of a Council Order.

This activity is in violation of the Rhode Island Coastal Resources Management Program. You are hereby issued an Official Finding and Notice of Violation number 19-0156, dated August 9, 2019. You must cease all clearing at this site and contact the undersigned by August 23, 2019.

Failure to comply with this order shall be a violation of a duly adopted Council regulation, and shall be followed by the issuance of a Cease and Desist Order which shall be registered in the land evidence records for the above property.

Sincerely,

Laura Miguel, Enforcement Staff
Coastal Resources Management Council
