Subject: Box Lacrosse Field at Seveney sports complex for Town Council agenda May 28th, 2019

Your Honorable Council:

Marshall Huggins is requesting a lacrosse box field/recreational rink be placed on the Gardner Seveney fields. The rink is completely modular and can be put on grass, pavement, or turf. It could be placed in several locations, which are currently not utilized. Mr. Huggins would like to place it aside of the T-ball field. He has met and discussed placement with the league manager who states it should be fine if placed there. If this is not suitable, Mr. Huggins is happy to discuss a few other locations for ideal placement. Mr. Huggins would like to rent the space monthly with an annual lease to the town. Financing, insurance, and all maintenance would be the responsibility of Mr. Huggins.

I believe that having the box field/recreational rink on the fields would be a compliment to Portsmouth Youth lacrosse activities. It would help in the development of the young athlete who specializes in lacrosse and wants to play the field game at a high level. My recommendation is that Mr. Huggins pays $250 a month to the town and he will cover all expenses associated with the rink.

Respectfully,

Wendy Bulk
Director of Recreation

Dear Wendy,

I would like to get permission to put a recreational rink up at the Glen. The rink I propose is completely modular and can be put on grass, pavement, turf. I have included photos below.

Middletown, RI has a rink at Howland Park, on Wapping Road.

I would like the towns permission to put the rink up, and am happy to discuss where the best location would be. There would be no cost to the town.

Thank You,
Marshall Huggins
