**Subject:** [\*EXTERNAL\*] Storage Shed Variance

Hello,

This is to support my neighbors, Paula Loscocco and Andy DaSilva's, request for a variance for their storage shed. Their shed has been there forever and there is no way it can be between their house and the water. Moreover, this doesn't make sense as nobody's shed is between their house and the water. The water side is considered the front and that is where the view is.

I hope you will approve their request.

All the Best,  
Rusty Stieff
