

Town of Portsmouth
Zoning Board Review
2200 East Main Road
Portsmouth, RI 02871

July 10, 2020

RE: (R-20) Christopher & Debra Burnett (owners) seek a special use permit to construct a Small Solar Energy System (Art. V Sec. J.#.) located at 415 Sea Meadow Dr. (42A-55).

To the Zoning Board,

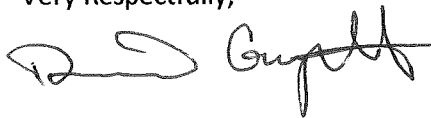

I am writing regarding referenced matter representing Sea Meadow Farms Association. As I am sure the Board has been made aware the structure which the solar system rests has already been constructed.

This structure does not comply with the covenants of our Association. I understand times have changed and the covenants were written years ago, yet, the structure itself is not generally in line with the design of the neighborhood nor was a proper process followed.

Personally, I support the use of alternate energy, and we have association rules that need to be considered. At any point, if an association member finds they need something that appears to be restricted, they should present it to the board for reconsideration and work together to find a satisfactory solution.

We ask that you take this letter into consideration for this application.

Very Respectfully,

A handwritten signature in black ink, appearing to read "David Gugliotta". The signature is fluid and cursive, with the first name being more prominent.
