Re: Restricted Parking

I respectfully request the Town Council to review the parking restrictions that were enacted for the 2020 beach season due to COVID-19. Currently, parking is restricted on William Street, Annette Drive, and Sigourney Road. Parking permits for residents and their guests on these streets have expired as of 09-30-2020. The Police Department would propose that the parking restrictions on these streets be enforceable from May 1<sup>st</sup> through October 1<sup>st</sup> as done in other communities.
