**Position Interest: Waste Water Appeals Board**

Since 2005 I have been interested in clean waters in Portsmouth. My interest in such matter perhaps originated with my reading of "Silent Spring" by Rachel Carson in (circa)1960. You can see from my application that I have held several positions in these matters. I wish to keep my hand in in this matter so that at some time I can document that the expense that the residents of Portsmouth have incurred in the matter of the Notice Of Violation Consent agreement has been at best an effort in cost not commensurate with gain and more accurately identified as a waste of money.
