§ 124-7 Contained burning allowed without permit.

Burning is allowed when the fire is contained in a waste burner with a properly screened top or an outdoor fireplace and located safely on private property no less than 25 feet from any structure, fence or property line. Other commercially available containers, commonly referred to as fire pits, fire rings, chimenea, etc. may be utilized. ~~All such burning shall be permitted before 10:00 a.m. and after 5:00 p.m., unless the Chief or Deputy Chief of the Fire Department prohibits such burning for reasons hereafter set forth in § 124-9.~~ If the location of the container is unable to meet the 25-foot setback due to the size of the property, the owner may request an exemption from the setback requirement through the Fire Chief. If the Fire Chief or his or her designee finds the container or outdoor fireplace does not pose a hazard, he or she may issue an exemption permit for that calendar year. The fire location on the property shall not change once it has been inspected and given an exemption permit.
