Subject: Agenda Item Request 1

Greetings,

Please place on the next agenda:

Discussion/Action: Expansion of membership of the Parks and Recreation Committee.

Purpose: To increase the number of members of the Parks and Recreation Committee from 7 to 15. We have such a diverse community and many people are extremely interested in the parks and recreation options in our Town that I believe we should have more citizens involved on this advisory committee. I recall that there were more applications than positions when the committee was first sat.

Thank you,

Andrew V. Kelly
