AGREEMENT

Pursuant to the provisions of Chapter 149 of the Public Laws of the State of Rhode Island, 1961, as amended, entitled “An Act to Provide for Settlement of Disputes Concerning Wages or Rates of Pay or Other Terms and Conditions of Employment of Employees of Fire Departments,” this Agreement is made and entered into as of the 1st day of July, A.D. 2019, by and between the TOWN OF PORTSMOUTH and LOCAL 1949, INTERNATIONAL ASSOCIATION OF FIREFIGHTERS, AFL-CIO.

ARTICLE I. GENERAL

The Town of Portsmouth, hereinafter referred to as the “Town,” and Local 1949, International Association of Firefighters, AFL-CIO, hereinafter referred to as the “Union,” in order to increase the general efficiency of the Portsmouth Fire Department, and in order to maintain the existing harmonious relationship between the Town and the employees of the Portsmouth Fire Department, and in order to promote the morale, well-being and efficiency of the Portsmouth Fire Department, hereby agree as follows:

ARTICLE II. RECOGNITION

The Town recognizes the Union as the sole and exclusive bargaining agent for all permanent uniformed employees of the Portsmouth Fire Department, excepting only the Chief, for the purpose of collective bargaining relative to wages, salaries, hours and working conditions. The rights of the Town of Portsmouth and employees covered by this Agreement shall be respected and the provisions of this Agreement shall be observed for the orderly settlement of all questions.

ARTICLE III. UNION SECURITY

A. Any member of the Portsmouth Fire Department who is a member of the Union as of the effective date of this Agreement, and any member of the Fire Department who becomes a member of the Union during the term of this Agreement shall remain a member of the Union for the duration of this Agreement.

B. The Town agrees not to discriminate against members of the Fire Department in any way for membership in the Union or because of activities conducted in such a manner as not to interfere with the public safety responsibilities of the Fire Department.

C. The Town agrees that the Union shall have the right to hold meetings at the Fire Department headquarters, provided permission for the same shall be obtained from the Chief of the Department. It is further agreed that such permission will not be unreasonably withheld.

ARTICLE IV. DUES DEDUCTION

The Town agrees to deduct Union dues upon receipt of authorization cards from members of the Union who decide to have the Town deduct such dues, which authorization shall be irrevocable during the term of the contract. The Town shall forward to the Treasurer of the Union dues deductions by the 15th of the month following the month of deduction. The Union shall indemnify the Town and hold it harmless against any and all claims, demands, suits or other forms of liability that may arise out of, or by reason of, any action taken by the Town for the purpose of complying with the provisions of this Article.

ARTICLE V. NO STRIKE CLAUSE

In consideration of the right of employees covered by the Agreement to a resolution of disputed questions under the grievance and arbitration proceedings hereinafter set forth, the Union, for itself and for all employees covered by this Agreement, hereby agrees that no employee covered by this Agreement shall have any right to engage in any work stoppage, slowdown or strike, and that if any unauthorized or wildcat work stoppage, slowdown or strike shall take place, the Union will immediately notify such employee so engaging in such unauthorized activities to cease and desist and shall publicly declare that such work stoppage, slowdown or strike is illegal and unauthorized. The Town has the right to discipline any employee who engages in an unauthorized work stoppage, slowdown or strike.

ARTICLE VI. MANAGEMENT RIGHTS

The Town shall retain the right to issue Standard Operating Guidelines, general orders or policies governing the internal conduct of the Fire Department as provided by law. Firefighters 3rd Class during their first twelve (12) months of employment can be discharged without cause. Regular employees can be discharged for just cause. It is agreed upon that the Town of Portsmouth can hire/institute the use of civilian dispatchers. The dispatchers do not count towards the minimum staffing requirements in accordance with Article XI for Firefighters. If one is not available, it will be filled by a full-time civilian dispatcher, and, if no full-time civilian dispatcher is available, then it is offered to a permanent firefighter or fire officer. No permanent Firefighter or Fire Officer can be ordered into the position of Civilian Dispatcher unless determined necessary by the Fire Chief during times of emergencies.

ARTICLE VII. LEAVE OF ABSENCE

A leave of absence may be granted by the Town Council but shall be without compensation. A leave of absence of over six (6) months duration shall be considered a break in employment and upon return to work, the employee shall have the status of a new employee.

ARTICLE VIII. SICK LEAVE, BEREAVEMENT LEAVE, LIGHT DUTY, ETC.

A. Sick Leave: Any employee hired prior to July 1, 2016 of the Fire Department covered by this Agreement shall be entitled to sick leave at the rate of one and one-quarter (1 1/4) days for each full calendar month of service; provided, however, that such benefit shall not accrue in excess of one hundred eighty (180) days. Any employee hired on or after July 1, 2016 of the Fire Department covered by this agreement shall be entitled to sick leave at the rate of (.833) days for each full calendar month of service; provided, however, that such benefit shall not accrue in excess of one hundred twenty (120) days. An employee on sick or injury leave shall remain at his/her residence, except that the employee may depart his/her residence to receive medical treatment, to secure drugs from a pharmacy or for other reasons deemed appropriate by the Department so long as the employee advises his/her superior of his/her planned departure; provided, however, nothing herein contained shall be interpreted to prevent an employee from departing his/her residence as part of his/her therapy or convalescence as prescribed by his/her physician (subject to review by Town appointed physician at

Town's expense). If an absence is for other than treatment, therapy, or to secure prescribed drugs, approval of the superior in advance must be obtained. Should the employee leave his/her residence without providing advance notice of such departure, and securing the superior's approval, where necessary, he/she shall be denied sick or injury leave.

The Town shall have the right to require an employee to obtain a doctor's certificate from a doctor of its choice, verifying his/her illness; provided, however, that in any case where the Town requires such certificate, the Town shall pay the cost of obtaining the same.

Excluded Illnesses

Sick leave with pay shall not be granted for intoxication or use of narcotics, except that sick leave will be granted for treatment or rehabilitation as approved by the Director of Personnel on the same basis as granted for any other illness.

Sick leave for employees covered by this Agreement shall be granted for the following defined reasons:

a. Personal illness or physical incapacity not connected with the employee's service in the Fire Department, to such an extent as to render said employee unable to perform the duties of his/her present position or some other position in the Fire Department if said employee is found capable of other departmental work by a qualified physician. When a member is out on sick leave, he/she must leave a telephone number where he/she can be reached.

b. Enforced quarantine when established and declared by the Department of Health or qualified physician for the period of such quarantine only.

c. Illness/injury of a member of the immediate family of an employee, when the presence of the employee is required on account of said illness/injury, the employee shall furnish satisfactory proof of illness/injury after two (2) consecutive shifts for attending to the member of the immediate family. Leave shall be denied in the absence of such proof. Leave taken for this reason shall be deducted from the employee's sick leave.

B. Bereavement Leave: Personal leave for the following reasons shall be granted but shall not be charged against the employee's sick leave:

a. In the event of a death occurring in the immediate family of a member of the Fire Department covered by this Agreement, such employee shall be entitled to a leave of absence, with pay, from the time of notification of death to and including the day following the burial of the deceased, for the purpose of attending funeral services and making the necessary arrangements therefore, and provided, however, no employee will exceed four (4) working days without permission from the Fire Chief. Immediate family is defined as husband, wife, child, parent, sister, brother, grandchild, grandparent, mother-in-law, father-in-law, brother-in-law, sister-in-law, daughter-in-law, son-in-law, step-child and step-parent, or otherwise as determined by the Fire Chief. The Employee shall furnish evidence of death and attendance at funeral, if so requested by the Town. In the event of the death of an aunt or uncle of a member of the Fire Department covered by this agreement, said member shall be authorized to receive two (2) working days with pay as bereavement leave, the day of the calling hours and the day of memorial service and/or funeral.

b. In the case of death of relatives other than as provided in Paragraph a. above, such leave of absence with pay shall be for such period of time as may be granted, in writing, at the discretion of the Fire Chief.

C. Sick Leave upon Retirement, Death or Termination of Employment: In any case where an employee covered by this Agreement dies having at such time unused, accumulated sick leave, the Town shall pay forty percent (40%) of the amount of such accrued, unused sick leave to the Executor or Administrator of the employee's estate or to his/her widow(er) if there be no Executor or Administrator; or to his/her next of kin if there be no widow(er). In the event, however, that such employee's death is deemed to be in the line of duty, the Town shall pay one hundred percent (100%) of the amount of such accrued, unused sick leave to the Executor or Administrator of the employee's estate or to his/her widow(er) if there be no Executor or Administrator; or to his/her next of kin if there be no widow(er).

In the case of retirement or voluntary termination after ten (10) years of employment where an employee has unused, accumulated sick leave, the Town shall pay forty percent (40%) of the amount of

such accrued, unused sick leave directly to the employee on his/her retirement or voluntary termination of employment from the employ of the Town.

The amount to be paid for unused, accumulated sick leave pay shall be determined by multiplying the employee's most recent daily rate of pay (i.e., his/her weekly pay divided by five [5]) by the number of unused, accumulated days of sick leave, as above set forth, up to a maximum of seventy-two (72) days for employees hired prior to July 1, 2016 and a maximum of forty-eight (48) days for employees on or after July 1, 2016.

Should any firefighter receive benefits under the provisions of ARTICLE VIII or ARTICLE IX of this Collective Bargaining Agreement and should said member recover from some third party amounts attributable to sick leave, then the Town shall be subrogated to said third party for the amounts payable under these Articles. This provision does not apply to private insurance coverage purchased by the firefighter at his/her expense.

D. Light Duty: An employee may return to work temporarily on "light duty" status if they sustained a temporary physical impairment (job related or not) and can meet certain requirements as may be requested by the Town. The Town may:

1.) require a note from the employee's physician stating the reason for light duty, estimated date of return to full duty and the date of the next appointment for re-evaluation of the employee.

2.) require that the employee be examined by a Town appointed physician and that the employee accept/abide by said physician's diagnosis, treatment, date of return to full duty, etc.

3.) allow the employee to work dispatch overtime if no other employee on a "light duty" status is on duty during said overtime shift.

4.) deny the employee the privilege of working "light duty" if the Town believes that the employee's presence, at less than normal capabilities, would be a potential liability (risk) to the Town.

"Light duty" status (job related or not) is not a right of employment. It is a discretionary practice given by the Town to benefit employees who may otherwise lose pay and/or benefits through loss of work days.

Employees who are on “light duty” shall be required to perform the following:

- 1.) Administrative, Training or Fire Prevention duties as set forth by the Fire Chief.
- 2.) He/she will perform no firefighting or rescue activities whatsoever.
- 3.) He/she will not engage in strenuous maintenance, physical training or any other

fire station chore. He/she may sit in on non-physical training.

The Town of Portsmouth Fire Department will ensure that reasonable accommodations will be initiated for all employees on job-related “light duty” status.

E. Sick Leave Bank – Any active member of the bargaining unit may “gift” (grant his/her sick leave to another employee without the sick leave being made up) to another member without limitation. This can be done when the employee is going to exhaust all of their sick leave due to a non-job-related injury or illness or the illness of another family member which requires the employee to miss extended time from work.

ARTICLE IX. INJURY OR ILLNESS IN LINE OF DUTY

Employees who contract an illness or suffer an injury in the line of duty shall receive the benefits set forth in Chapter 45-19-1 of the General Laws of the State of Rhode Island.

Any employee who may be injured while on a private duty to which he/she is assigned shall be entitled to all of the rights, privileges and benefits of said Chapter 45-19-1, as if he/she were injured in the line of duty for the Town of Portsmouth, and shall be subject to all rules and regulations of the Portsmouth Fire Department.

The Town reserves the right to require any private employer to pay to the Town or to reimburse the Town the cost to the Town for insuring the Town’s liability under the foregoing paragraph. The decision to insure or not shall be solely that of the Town.

Should any firefighter receive benefits under the provisions of ARTICLE VIII or IX of this Collective Bargaining Agreement and should said member recover from some third party amounts attributable to sick leave, then the Town shall be subrogated to said third party for the amounts payable

under these ARTICLES. This provision does not apply to private insurance coverage purchased by the firefighter at his/her expense.

A. Total and Permanent Disability Pension – Employees Hired Prior to July 1, 2013

1. Accidental Disability: Work Related Injury/Illness. In the event that an employee hired prior to July 1, 2013 becomes totally and permanently disabled as a natural and proximate result of injuries or illness sustained while in the performance of duty and such disability is not the result of willful negligence or wanton misconduct on the part of the participant, who has been examined by a physician appointed by the Town and remained away from regular employment with the fire department for a period of eighteen (18) months, such participant shall be entitled to receive disability benefits upon being found unfit for duty. The Town shall direct the trustees to place such participant on a disability pension as of the day following the participant's termination date. In the event that a participant shall apply for a disability pension prior to the expiration of the eighteen (18) month period described above, the trustees shall cause the participant to submit to a medical examination as set forth in subsection five (5) below. Such participant shall be considered to be totally and permanently disabled for purposes of this section if the third physician concludes that the said participant is physically or mentally disabled for the performance of duty and such disability is not due to age or length of service.

2. Ordinary Disability: Non-Work-Related Injury/Illness. An employee hired prior to July 1, 2013 who has not reached his/her normal retirement and who has completed at least ten (10) years of service with the fire department of the Town and who has become disabled by any medically determinable physical or mental impairment which can be expected to be either of indefinite duration or result in death, which disability is not incurred in the performance of his/her duties for the fire department, and which renders the participant unfit for duty as a firefighter, may be retired on a disability pension.

3. The monthly disability benefits payable to a participant who becomes entitled thereto pursuant to Article IX section A.1. shall be an amount equal to sixty-six and two-thirds ($66 \frac{2}{3}$) of the participant's annual earnings at the time of the participant's retirement date, provided the participant is determined to be totally and permanently disabled from all

employment. For participants found to be only disabled from service as a member of the Portsmouth Fire Department by the Town's appointed physician, the benefit would be reduced from sixty-six and two-thirds percent (66 2/3%) of annual earnings to fifty percent (50%) of annual earnings. These changes shall take place for all disabilities incurred after 1 July 2010. The benefit shall be paid monthly for the period of disability and shall be adjusted annually by one and seven-tenths percent (1.7%) beginning on January 1 immediately following the fifth (5th) anniversary of the retiree's retirement. For a participant who is determined to be totally and permanently disabled from all employment, the benefit shall be paid monthly for the period of disability and shall be adjusted annually by a non-compounding COLA of three percent (3%) beginning on January 1 immediately following the retiree's retirement. For the purposes of this section "annual earnings" shall include base salary, longevity and E.M.T. bonus. The retiree is obligated to provide evidence of the continuation of disability status as requested by the Personnel Board. Failure to comply with such request by the Personnel Board will result in termination of disability benefits.

The monthly disability benefit payable to an employee hired prior to July 1, 2013 who becomes entitled thereto pursuant to Article IX section A.2. shall be equal to fifty percent (50%) of the employee's average monthly rate of earnings over any period of three consecutive years which produces the highest average monthly rate. The benefit shall be payable monthly for the period of disability and shall be adjusted annually by one and seven-tenths percent (1.7%) beginning on January 1 immediately following the fifth (5th) anniversary of the retiree's retirement as set forth in Paragraph 3.

B. Total and Permanent Disability Pension – Employees Hired On or After July 1, 2013

4. Accidental Disability: Work Related Injury/Illness. In the event that an employee hired on or after July 1, 2013 becomes totally and permanently disabled as a natural and proximate result of injuries or illness sustained while in the performance of duty and such disability is not the result of willful negligence or wanton misconduct on the part of the participant, who has been examined by a physician appointed by the Town and remained away from regular employment with the fire department for a period of eighteen (18) months, such participant shall be entitled to

receive disability benefits upon being found unfit for duty. The Town shall direct the trustees to place such participant on a disability pension as of the day following the participant's termination date. In the event that a participant shall apply for a disability pension prior to the expiration of the eighteen (18) month period described above, the trustees shall cause the participant to submit to a medical examination as set forth in subsection five (5) below. Such participant shall be considered to be totally and permanently disabled for purposes of this section if the third physician concludes that the said participant is physically or mentally disabled for the performance of duty and such disability is not due to age or length of service

An employee hired on or after July 1, 2013 remaining in a 401a defined contribution retirement account will be enrolled in both the 401a Plan and an alternate plan for disability pensions. Enrollment in the disability pension plan will be limited to accidental or ordinary disability retirement purposes only. The Town will contribute an additional amount to the disability pension plan in order to fund disability retirements only. The employee will be considered one hundred percent (100%) vested in the 401(a) plan, regardless of years of service.

As of the accidental disability date, the total value of the employee's 401(a) Plan will be used to actuarially determine the monthly annuity value of the account. This calculation will be performed at the Town's expense by the Town's pension actuary. Once the monthly annuity value has been determined, the disability pension plan monthly pension payout will be offset by that amount.

The Town shall provide an annual cost of living adjustment for accidental disability pensions (total and permanent disability) equal to three percent (3%) non-compounding, which shall begin on January 1 immediately following the retiree's retirement. For accidental disability pensions which are not determined to result in total and permanent disability, the Town shall provide an annual cost of living adjustment equal to 1.7%, which shall begin on January 1 immediately following the fifth (5th) anniversary of the retiree's retirement.

Employees with total and permanent disabilities who were injured on or before July 1, 2016 shall continue to receive a three percent (3%) compounded cost of living adjustment.

For example: The employee's earnings at the time of accidental disability retirement are \$48,000. The annual disability pension amount is \$32,000 and the monthly disability pension amount is \$2,667. The actuary's annuity valuation, of the participant's 401(a) Plan, is determined to be \$200 per month. The monthly pension amount paid to the retiree from the disability pension plan would be reduced by \$200 per month. The retiree would receive \$2,467 per month from the disability pension plan and would be responsible for drawing the remainder from his/her 401(a) plan, to produce the total sixty-six and two thirds (66 2/3%) accidental disability pension.

5. Ordinary Disability. In the event that an employee is injured off the job and is eligible to receive an ordinary disability retirement, the employee will receive fifty percent (50%) of the participant's average monthly rate of earnings over any three (3) consecutive years which produces the highest average monthly rate, until such time as the participant reaches his/her normal retirement date (completion of twenty (20) years of service.) The ordinary disability retirement will convert to a normal retirement at the normal retirement date and the participant would then begin taking distributions exclusively from the 401(a) Plan.

The employee will be considered one hundred percent (100%) vested in the 401(a) Plan, regardless of years of service. For the purposes of this section "annual earnings" shall include base salary and longevity. The retiree is obligated to provide evidence of the continuation of disability status as requested by the Personnel Board. Failure to comply with such request by the Personnel Board will result in termination of disability benefits.

For example, at the time of ordinary disability retirement, the employee's highest average annual earnings (salary and longevity) based upon any two (2) consecutive years of earnings, are \$48,000. The annual pension amount is \$24,000 and the monthly pension amount is \$2,000. The retiree would receive \$2,000 per month from the disability pension plan, until such time as the participant reaches his/her normal retirement date. The retiree would then begin taking distributions exclusively from the 401(a) Plan.

6. The trustees may, from time to time, cause a participant who is receiving a disability pension to be examined by a qualified physician selected by the trustees; provided, however, that there may not be more than one (1) annual examination after the first year of the participant's

retirement date. If, in such physician's opinion, the participant's condition warrants him/her returning to duty with the Fire Department, and the participant meets the Department's written and physical requirements for new employees, he/she shall be regarded as having recovered from such disability, he/she shall be reinstated to duty forthwith, and further payment of a disability pension to him/her shall cease. The failure of the participant to submit to such examination, when so requested by the trustees, shall result in discontinuance of the payment of the disability pension to such participant until he/she shall comply with such request.

7. In the event a dispute shall arise as to whether a participant is or continues to be disabled as provided by this subsection prior to cessation of benefits, he/she shall be examined by a qualified physician selected by the trustees and a qualified physician selected by such participant. The findings of such physicians shall be binding on the trustees, the participant and all others concerned. If such physicians shall not agree, the participant shall be examined by a third physician selected by the two (2) other physicians, and the findings of such third physician shall be final and binding on the trustees, the participant and all others concerned. The trustees shall assume all expenses related to these examinations. Any amounts paid or payable under the provisions of Article IX shall be deemed in lieu of Worker's Compensation.

Employees hired after July 1, 2013 and who have selected to enroll in the State of Rhode Island Municipal Retirement System (MERS) will follow the MERS plan statutory regulations regarding disability retirements.

8. Temporary Disability Insurance (TDI): All active members of the bargaining unit will have the option of being enrolled in the State of Rhode Island Temporary Disability Insurance Program. The employee will be responsible for all costs associated with TDI insurance. The Town will facilitate payroll deductions for TDI and payment to the RI Division of Taxation

ARTICLE X. TIME OFF WHILE PERFORMING UNION DUTIES

A. Members of the Portsmouth Fire Department covered by this Agreement who are officers of the Union, or members of the Union's Negotiating Committee (not to exceed four [4]) shall

be allowed reasonable time off for official Union business with the Town for the purpose of attending collective bargaining sessions without loss of pay and without the requirement to make up such time. Members of the Portsmouth Fire Department who are officers of the Union (not to exceed three [3]) shall be allowed reasonable time off to attend meetings with the Rhode Island State Firefighters Association and State and National conventions of the International Association of Firefighters without loss of pay and without the requirement to make up such time. Time off for conventions or conferences shall be limited to two (2) conventions/conferences in odd years and three (3) conventions/conferences in even years.

B. In addition to the foregoing, members of the Portsmouth Fire Department who are officers of the Union or members of the Union's Negotiating Committee (not to exceed two [2]) shall be allowed reasonable time off without loss of pay and without the requirement to make up such time for bargaining unit business in connection with conferences with its attorney or attorneys regarding contract negotiation matters and/or arbitration matters concerning the Collective Bargaining Agreement and similar time off for conferences relative to bargaining unit grievances and grievance arbitration and attendance to such grievance arbitration hearings. In addition, any member of the Portsmouth Fire Department who is selected as an arbitrator, either in connection with bargaining unit contract arbitration or grievance arbitration relating to the Town of Portsmouth and Local 1949, shall be allowed reasonable time off without loss of pay and without the requirement to make up such time in connection with all conferences pertaining to said arbitration proceeding.

ARTICLE XI. MINIMUM MANPOWER

A. It shall be the responsibility of the Chief to maintain eight (8) uniform line personnel on duty on each shift.

The staffing assignments will be as follows: Each Shift will have a minimum of one (1) permanent Captain or Acting Captain assigned as the Shift Commander and assigned to a utility response vehicle. One Engine Company will be staffed by three (3) permanent Firefighters, one Rescue Company will be cross-staffed with the Ladder Company and be staffed by one (1) permanent or acting Lieutenant and one (1) permanent Firefighter and the other Rescue Company will be cross-

staffed with an Engine Company and staffed by one (1) permanent or acting Lieutenant and one (1) permanent Firefighter. The Town may have floaters assigned to each shift above the positions set forth above, the shift floaters will be assigned by the shift commander. The order or district in which the two Rescue Companies first respond will be determined by the Fire Chief.

A minimum of two (2) permanent officers have to be on duty at all times. In the event that Article XXII Sections C or D is not in effect, acting officers are allowed to fill single shift vacancies. Permanent firefighters include Firefighters 1st Class, 2nd Class and 3rd Class

The Town and union agree that the Town may not fill all vacant positions but will meet the minimum manning of eight per shift. The Town and Union agree that the town will fill 650 shift vacancies created by annual, sick or bereavement leave (exclusive of IOD leave, long-term illness leave or due to decreased staffing levels below 32 full-time line positions). The impact will be monitored by the Fire Chief and the Union with the intent to manage the use of the 650 shifts while remaining within the allotted budget. During this program management the staffing can be reduced to a minimum of seven (7) personnel on duty per shift.

B. Swap Leave – Any active member of Local 1949 may “swap” shifts with another employee of the same rank or acting rank. Swaps are at no cost to the Town.

ARTICLE XII. TRAINING

All regular maintenance of equipment, apparatus and buildings and outside training shall be conducted between the hours of 8:00 A.M. and 4:30 P.M.; provided, however, that outside night training may be conducted one (1) night per platoon per month up to 10:00 P.M.

There shall be no training on Sundays, or the holidays set forth in this Agreement. The Fire Chief and the Union agree that there may be specialized training that needs to occur on a weekend or night, and they are in agreement to conduct this training.

Inside training may be conducted in the evening from 7:00 P.M. to 10:00 P.M.

Representatives of Local 1949 shall meet with the Fire Chief to discuss the matter of outside training or drills and the length thereof when the temperature is exceedingly hot or cold.

ARTICLE XIII. DUTIES

A. The duties of the members of the Portsmouth Fire Department shall consist of obeying the orders given by the Chief of department or his/her designee, in accordance with the Department's Rules and Regulations.

B. The duties of the Fire Marshal/Captain shall be to conduct residential and commercial life safety code inspections, residential and commercial plan reviews, fire alarm system reviews and compliance inspections, public fire safety education programs and fire investigations.

C. The Fire Marshal/Captain shall report directly to the Fire Chief and will be a member of the Command Staff, utilized in emergencies when appropriate and necessary. The Fire Marshal/Captain shall be assigned to a forty (40) hour work week, Monday through Friday 8:00 a.m. until 4:30 p.m. with weekends and holidays off. Due to the nature of the position and at the discretion of the Fire Chief, the Fire Marshal/Captain shall be able to work a flexible schedule as allowed or required. The Fire Marshal/Captain is only eligible for shift overtime when no other Officer or Firefighter is available, and the Fire Marshal/Captain is not eligible to be ordered in for shift positions.

ARTICLE XIV. RULES AND REGULATIONS

All members of the Fire Department covered by this Agreement shall receive a copy of the Portsmouth Fire Department's Standard Operating Guidelines. The bargaining unit will consist of thirty-two (32) line positions consisting of four (4) Captain/Shift Commanders, eight (8) Lieutenants, twenty (20) Firefighters and one (1) Fire Marshal/Captain. Each new member of the Fire Department shall receive a copy of the Portsmouth Fire Department's Standard Operating Guidelines before he/she reports for his/her first tour of duty.

The Union shall have the right to make comment in writing on any and all sections of the Portsmouth Fire Departments Standard Operating Guidelines to the Chief, with a copy thereof being sent to the Council.

The parties hereto agree to establish an advisory committee consisting of two (2) members of the Union's bargaining unit and two (2) from management to cooperate with the Chief of the Department in amending and updating the Portsmouth Fire Department's Standard Operating Guidelines.

No rule or regulation as originally adopted or as amended from time to time shall contravene any term or condition set forth in this Agreement.

ARTICLE XV. HOURS

The regular work schedule for members of the Fire Department shall be an average work week of forty-two (42) hours. The schedule for such a work week shall be a four (4) platoon system, working two (2) ten (10) hour days, two (2) fourteen (14) hour nights, and four (4) days off. Day shifts are from 8:00am until 6:00pm and night shifts are from 6:00pm until 8:00am.

ARTICLE XVI. OVERTIME PAY

Members of the Fire Department who are required to work fifteen (15) minutes or more beyond or outside of their regular shift shall be paid at the rate of time and one-half (1 1/2) their respective hourly rate for any and all work performed beyond their regular scheduled work. Any time worked in any hour beyond the original fifteen (15) minute period shall be considered as one (1) full hour of work for the overtime pay provisions hereinbefore set forth. The Town of Portsmouth shall make every reasonable effort to include in each paycheck any overtime pay to which the employee is entitled. In case any rule, regulation, order or other directive by whatever name the same may be called, requires any employee covered by this Agreement to have, acquire or maintain any equipment, apparatus or device other than a telephone, the Town may be responsible for the purchase and maintenance of such equipment.

The Town and the Union shall cooperate in formulating a physical enhancement program, designed to improve the physical condition of the employee. To this end a committee shall be formed comprised of an equal number of representatives of the Town and the Union, with the charge of formulating a program for employees of the Fire Department. Such program shall not be mandatory on any employee. The Town and the Union will encourage all employees to participate in the program.

ARTICLE XXXIV. PENSIONS / RETIREMENT

Effective July 1, 2013, the Town and the Union agree to adopt "Option 2" of the Town's Municipal Pension Funding Improvement Plan submitted to the State of Rhode Island Department of Revenue on October 31, 2012. The details of this change to the Town's Municipal Pension Plan are as follows:

For employees hired prior to July 1, 2013:

Employees hired prior to July 1, 2013, will retain any credit in the Pension Plan that they earned for credited service prior to July 1, 2013, pursuant to the benefit levels that were in effect prior to July 1, 2013, (i.e., three percent (3%) per year of credited service toward their pension benefit for up to the first twenty (20) years of credited service and an additional two percent (2%) per credited year of

service beyond twenty (20) years toward their pension benefit to a maximum of seven (7) years for up to an additional fourteen percent (14%)).

For service on or after July 1, 2013 until June 30, 2016, such employees will receive one percent (1%) per year of credited service toward their pension benefit. For Service on or after July 1, 2016, such employees will receive a two percent (2%) per year of credited service toward their pension benefit, but in no event shall such an employee receive a pension benefit of more than seventy four percent (74%) of the highest of the last three (3) years of base salary, longevity and EMT bonus. Such employees shall also be enrolled in a Defined Contribution Plan (a 401(a) or equivalent type plan), to which employees will contribute five percent (5%) of annual salary and the Town will contribute one percent (1%) of annual salary. In addition, on July 1, 2013, the Town will make a contribution of five thousand dollars (\$5,000) to the defined contribution plan of each member of the bargaining unit hired prior to July 1, 2013. Any funds contributed to the defined contribution plan by the Town shall be subject to a five (5) year vesting schedule, (i.e., Town contributed funds are 20% vested after 1 year of employment, 40% vested after 2 years of employment, 60% vested after 3 years of employment, 80% vested after 4 years of employment, and 100% vested after 5 years of employment). The Town will also offer an optional 457 Plan to employees.

The Town of Portsmouth shall also continue to provide for such employees a pre-retirement death benefit equal to thirty percent (30%) of the average of the last five (5) year's annual salary plus ten percent (10%) for each child under age twenty-one (21) to a maximum of fifty percent (50%) of the average of the last five (5) year's annual salary.

The defined benefit pension calculation will be based on payments earned during the three (3) (or five (5) for death benefits) twelve-month periods of 365 or 366 days each immediately preceding the retirement date. The number of actual pay period dates falling within any twelve-month period will not have a bearing on the calculation of pension. Gross annual salary for this pension calculation includes a participant's base annual salary, longevity and E.M.T. bonus, but excludes overtime, clothing allowance, holiday pay and any other form of compensation.

Effective July 1, 2016, the cost of the defined benefit portion of the pension plan shall be funded by employee pre-tax contributions of four percent (4%) of the employee's base salary, longevity and EMT bonus but exclusive of any other form of compensation. Such members of the Portsmouth

Fire Department hired prior to July 1, 2013 and covered under this contract up to and including anyone promoted to the rank of Deputy or Chief on or after the effective date hereof; the remaining cost of the defined benefit portion of the Pension Plan shall be funded by the Town of Portsmouth. Effective for such employees hired prior to July 1, 2013, who retire on or after July 1, 2013, with twenty (20) or more years of Credited Service, the Town shall provide an annual Pension Escalator (costs of living adjustment) of one and seven-tenths percent (1.7%), which shall not commence until the first day of January immediately following the fifth (5th) anniversary of the retiree's retirement.

Example. An employee who retires in December 2013 will receive his/her first pension escalator on the first day of January 2018.

The Town is granted the option to withdraw from Social Security coverage, and the members in the Union shall give their full cooperation to the Town in accomplishing said withdrawals.

All employees hired prior to July 1, 2013, shall be vested after ten (10) years of service in the defined benefit pension plan and shall be allowed to collect their pension following the first (1st) day they would have completed twenty (20) years of service in the pension system. While nothing herein contained shall be deemed to prevent an employee from retiring at any time for which he/she is eligible, failure of an employee to provide the Town with six (6) months' notice of intention to retire may result in delay in issuance of the initial monthly pension checks.

This shall be retroactive to the first (1st) day of employment and/or participation in the plan. All employees hired before July 1, 2013 are eligible to retire after twenty (20) years of credited service.

For employees hired on or after July 1, 2013:

Employees hired on or after July 1, 2013, shall have the option to be enrolled in the RI State Municipal Employees retirement plan (MERS). Members electing to be enrolled into MERS will be subject to the current MERS plan provision for Firefighters with the COLA option and including disability retirement provisions. The Town will contribute 9.0% of earnings and the equivalent disability plan percentage, currently paid for 401a plan members, into the MERS system. Any additional required contribution will be paid by the employee with pre-tax deductions from their bi-weekly pay. Or the employee can be enrolled in a Defined Contribution Plan (401(a) or equivalent type plan) only, to which the employee will contribute 8% of base salary (inclusive of base salary only)

and exclusive of longevity, overtime pay and any other form of compensation) and the Town will contribute 9% of base salary (inclusive of base salary only, and exclusive of longevity, overtime and any other form of compensation). The funds contributed to the defined contribution plan by the Town shall be subject to a five (5) year vesting schedule, (i.e., Town contributed funds are 20% vested after 1 year of service, 40% vested after 2 years of service, 60% vested after 3 years of service, 80% vested after 4 years of service, and 100% vested after 5 years of service) For employees hired between July 1, 2013 and June 30, 2014, the Town will make a pro-rated contribution to the employee's 401a plan equal to \$5,000 times the number of days from the date of hire to June 30, 2014 divided by 365.

The Town and Union agree to review the MERS retirement plan option prior to the expiration of the collective bargaining agreement for its effects and continuation.

All employees hired on or after July 1, 2013 are eligible to retire after twenty (20) years of credited service.

Effective July 1, 2019, all members of the bargaining unit who provide written notice of intent to retire one year in advance of date of retirement shall receive a retirement bonus in the amount of five thousand dollars (\$5000.00) but only two thousand dollars (\$2000.00) shall be included as part of the member annual salary for purposes for calculation of pension benefit. The incentive bonus shall become payable and the written intent to retire shall become irrevocable upon the date of the member's retirement or the date the member commences leave in anticipation of retirement, whichever occurs first. Employees who utilize the provision are allowed to use thirty (30) shifts of sick leave and their accumulated annual leave prior to their scheduled retirement date. Employees who give one year's advance notice of retirement but withdraw their retirement notice within thirty (30) days of their scheduled retirement date will not be allowed to use this contract provision once they remain working.

ARTICLE XXXV. BID SYSTEM

A. Shift Bids: Annually in May, the union will hold a bid meeting. Bids will take effect annually on July 1st. Bids will be at no cost to the Town. Bids will be made by seniority in rank and all line positions will be re-bid each year. Employees who are promoted or hired after the annual bid meeting will be assigned to the vacant position(s) by seniority in rank. A particular shift OIC, with the approval of the Chief, can temporarily re-assign a member of his/her platoon when a documented training issue or re-training is needed. The OIC and Chief will produce an action plan in which the re-training and duration of re-assignment will be provided to the employee. Members of a particular platoon can swap duties or assignments for a shift or tour with the approval of the shift OIC.

The Captain/Fire Marshal position will be bid by seniority in rank only when there is a vacancy in that position. The Captain/Fire Marshal can only vacate the position if there is a shift vacancy they can bid to or if the next highest-ranking employee on the current Captains promotional list in order will take the position, in this case the person would be reduced in rank to Lieutenant and placed in seniority as a Lieutenant based upon total time served as a Lieutenant.

When a vacancy occurs after July 1st in any rank, the vacated position will be offered to all members of that rank by seniority in rank. These bids will be at no cost to the town.

Firefighters 3rd Class cannot bid. If they are eligible to count towards staffing, they will be assigned to the vacant positions by the Fire Chief.

ARTICLE XXXVI. DURATION OF THIS AGREEMENT

This agreement shall be for the term of three (3) years commencing 1 July 2019 and ending 30 June 2022.

Effective upon ratification of the instant agreement by the parties, any active member of the bargaining unit with less or more than twenty (20) years credited service may immediately apply all or a part of unused, accumulated sick leave (180 days maximum) to attain credited service of twenty (20) or more years and retire immediately with twenty (20) or more years credited service. Employees opting to utilize this provision are not eligible for the retirement bonus detailed in Article XXXIV.
